

# Calling all livestock agents!

*Are you a livestock agent looking to get up to speed on the transition to sheep and goat eID happening from 1 January 2025?*

## Join this webinar for an update on sheep and goat eID and the NLIS plus recent LPA changes.

Integrity Systems Company (ISC) is hosting a special webinar on Friday 22 November from 12.30-1.30pm (AEDT) to help support stock agents ahead of the rollout of mandatory individual electronic identification (eID) for sheep and goats from 1 January 2025 and recent Livestock Production Assurance (LPA) changes.

The webinar will cover key requirements of sheep and goat eID and feature a live demonstration of how to do a property-to-property transfer on the National Livestock Identification System (NLIS). You will also learn how to access key reports on the NLIS.

In addition to eID, the webinar will also cover the new harvested rangeland goats (HRG) voluntary LPA module for tag-free movements post 1 January 2025. Other LPA topics covered will include new NVD forms to support HRG and goat movements, self-assessment accreditation changes and how accreditation reminders are shared.

Everyone who registers for the webinar will receive a resource pack following the event, including a recording, question and answer transcript, slide deck and other helpful resources.

**Friday 22 November 2024, 12.30pm (AEDT)**
