UNDERSTAND YOUR RED MEAT INTEGRITY SYSTEM REQUIREMENTS 

Are you new to owning livestock or looking to refresh your knowledge on traceability requirements?

Integrity Systems Company (ISC) is running a webinar series covering key aspects of the red meat integrity system. 

Hobby farmers and small landholders

Tuesday 12 November, 7pm (AEDT)

If you're new to owning livestock or only have a handful of cattle, sheep or goats on your property, this webinar is for you! We will cover a high-level overview of property identification codes (PICs), biosecurity requirements, livestock movements, and ISC and state department requirements.

PIC reconciliation

Wednesday 13 November, 7pm (AEDT)

Conduct an annual PIC reconciliation to check your National Livestock Identification System (NLIS) account is up-to-date. Join this webinar to learn how to ensure the livestock on your property are accurately reflected in the database.

Goats

Tuesday 19 November, 7pm (AEDT)

This webinar will highlight goat-specific changes to Livestock Production Assurance (LPA) and National Vendor Declarations (NVD), as well as changes to LPA accreditation, NLIS transfers and electronic identification (eID). 

Audit

Wednesday 20 November, 7pm (AEDT)

All LPA-accredited producers may be audited to check records and how food safety, biosecurity and animal welfare management is carried out. Join ISC and AUS-MEAT to take a deep dive into why LPA audits are important, how to prepare for one and what to expect. 

Register: integritysystems.com.au/events 

PLEASE NOTE: All webinars start at 7pm AEDT.

Please check carefully for the start time in your state:

Victoria / NSW / Tasmania	7pm	AEDT
Queensland	6pm	AEST
South Australia	6:30pm	ACDT
Northern Territory	5:30pm	ACST
Western Australia	4pm	AWST

Who are these webinars for?

These webinars have been structured to address the needs of specific user groups, including hobby farmers or small landholders, goat owners and goat depots, plus anyone handling livestock. That means farm owners, managers, overseers, farm hands and agricultural teachers will benefit!
